However, a recent Steam update prevents CrossOver from showing the Steam store, so I had to log into my Steam account on a PC and add Quake Live to my favourites before it would show up in my CrossOver installation of Steam. Installed it, launched Quake Live twice, and now it's working.</div><div><div>Originally Posted by EarthToGrandma</div><div>Very bad news.</div><div>I can't Steam working on OS X (using Wine).
